SOUTHERN STORMS DO MILLIONS IN DAMAGES

ALABAMA HAS FLOODS, COLD WAVE IN SOUTHEAST

TAKE FOUR MORE LIVES AND
CAUSE UNTOLD SUFFERING

HAVOC CAUSED BY RAGING ELEMENTS IN DIXIE
LAND

(By United Press)

Heavy snow storms paralyzed communication facilities in Pennsylvania today while high winds, sleet and rain caused damage and traffic delays in other eastern states.

Snow had drifted to a depth of three feet in parts of Pittsburgh and suburbs. East and west trains were from one to two hours behind schedule. Railroad tracks were strewn with fallen telephone poles.

Several Pennsylvania towns—Sunbury, Milton, Johnstown and Altoona—were cut off from wire communication with their neighbors.

All night in Washington and New York rain was driving before a wind of gale proportions, hampering ceremonies attending the activities of the German-Irish trans-Atlantic fliers. Bernt Balchen was forced back after starting for Washington from Curtiss Field in the airplane in which he hoped to bring the Bremen's crew back to New York.

Fruit crops were ruined by the snow, sleet and windstorms in Pennsylvania, Virginia, West Virginia and Maryland.

In Washington, trees were uprooted by the gale, automobiles were wrecked by debris and electric wires and window panes were broken.

Weather bureau attaches described the disturbance as the most violent and latest spring storm in many years.

Atlanta, Ga., April 28.—(UP)—Storms in Florida—floods in Alabama and a cold wave throughout the southeast, in the last 24 hours have wrought damage in the millions, taken four more lives and caused untold suffering to be added to the havoc caused by raging elements in Dixie during the past week.

A great swath of torn up trees, broken wires, windows, wrecked houses was spread across a wide Florida area today as the sun shone. Winds of tornado force converged in the area late yesterday to isolate scores of towns for hours, caused damage well in the millions and to take four lives.

The wide fertile Tom Bigbee river valley of Alabama continued in the grip of flood waters today, their height lifted by general rains of yesterday. Cotton fields were under water in great areas and thousands of homeless were in makeshift quarters on high ground.

The cold wave was out of the east. In western North Carolina snow fell and fruit trees were reported damaged. Georgia's peach belt also felt the sharp drop in temperature, which touched 42 above in Atlanta.

To the flood death toll of eight, the lives of four Floridians were added today as a result of the Florida storm. Two boys were electrocuted at Tampa by live wires and a man at Cocoa. A negro was the fourth victim killed at Dunnellon when his house collapsed in the blow.

Northwest Florida, where thousands of refugees from flooded lowlands of rivers and creeks were being cared for in towns outside the zone, escaped yesterday's tornado-like wind. It cut across the state from Bartow to St. Augustine. Scores of towns were in the path.

North of Ocala, Fla., damage was believed most extensive. Crops were badly damaged and roads strewn with uprooted trees.

Seven mules were crushed to death at Ocala when a barn collapsed. Buildings and telephone lines at Bunnell, Flagler Beach and Ormond Beach on the east coast were reported damaged.

The flood waters which swept down creeks and rivers in six southern states following heavy rains last week-end, were now threatening most gravely in Alabama. The Alabama river and the Tom Bigbee were cresting and moving southward, covering new areas with water.

New York, April 28.—Residents of half a dozen eastern states encountered winter weather today. High winds and snow or rain were reported in New York, Pennsylvania, New Jersey, Maryland, Connecticut and Virginia.

The wind reached gale force in New York, blowing down trees and

BREMEN CREW INTENDS TO REVISIT CANADA

FRAULEIN JUNKERS GIVES THE
UNITED PRESS AN INTERVIEW

FLIERS TO RETURN AFTER THE
AMERICAN RECEPTIONS
ARE OVER

By CARL D. GROAT
(United Press Staff Correspondent)

Washington, April 28.—The Bremen crew intends to revisit Canada. Fraulein Junkers, the organizing spirit of the Bremen relief work, told the United Press in an exclusive interview today that the fliers have determined to do this after their American receptions are over though the time of going to Canada or what cities shall be visited is not yet settled.

The planned trip around the states announced by the United Press from Canada several days ago, is still under consideration, but the fliers and their backers have been too busy to work out an itinerary.

"We simply haven't had a chance to make plans beyond the New York and Washington receptions," Fraulein Junkers said. "That apparently takes us up to Wednesday, and that is as far as we are definitely arranged."

"But we shall revisit Canada. Everybody was so kind, hospitable and helpful there to us that we want to pay this visit, and this we will do."

Asked if the American journey is definite, she said:

"We haven't really had time to make our plans yet, and there is one group here and one in New York. We will consider all these matters and they will be announced as soon as possible."

Fraulein Junkers, who handled the Bremen relief work at Quebec, Montreal and Lake St. Agnes, was extremely tired today, but strongly determined to keep up with her tasks.

"That the American tour trip is still definitely planned was indicated when she asked the writer: 'Shall we see you in San Francisco?'"

The fliers decided to leave for New York on the 1:05 P. M. Pennsylvania train. This will place them in New York at 6:05 P. M.

New York, April 28.—Bernt Balchen, confronted by almost impossible flying weather, gave up his attempt today to fly to Washington to bring back the crew of the trans-Atlantic monoplane Bremen.

Balchen left Curtiss Field this morning in the Ford relief plane, but was forced back to Miller Field on Staten Island. He said he would return to Mitchell Field and that the ocean fliers would make their own decision on how they would get from Washington to New York.

3 FELLOW AIRMEN FOR WHOM

STATE ENTRY OF TRANS-ATLANTIC FLIERS TAKES
PLACE WEDNESDAY

By LYLE C. WILSON
(United Press Staff Correspondent)

Washington, April 28.—(U.P.)—Three fellow airmen, for whom Floyd Bennett gave his life, arose early today to place a wreath on the muddy, new grave in Arlington national cemetery where Bennett was buried yesterday in a wind-whipped rain.

Major Gunther Von Huenefeld, Captain Hermann Koehl and Major James Fitzmaurice, the Irish-German crew of the ice-bound airplane Bremen, arrived in Washington at 10:13 P. M. yesterday by train from New York. The bewildered fliers and Miss Herta Junkers who accompanied them from New York were surrounded and almost swallowed by the small, enthusiastic crowd at the Union station.

Plans for the informal welcome were cast aside as police struggled to extricate the trans-Atlantic fliers from the crowd and load them into automobiles which took the four to Bolling field where they spent the night. Calcium flares and photographers' flashlights illuminated the milling welcomers in the center of which the fliers smiled or waved in an attempt to show their appreciation of the spontaneous cheers which had greeted them.

It was a semi-official occasion. The state entry of the first men to fly across the Atlantic from east to west in a heavier-than-air machine will take place on Wednesday. Today they are not here in the role of world heroes but as mourners at Bennett's fresh tomb. Because of that, the trappings which ordinarily would have accompanied their arrival were conspicuously absent. Representatives of the German embassy and of the United States army were at the station to say hello, but neither the state department nor President Coolidge was represented. All that awaits their return to Washington on Wednesday.

Miss Junkers and the fliers entered army cars while a musician of somewhat meager attainments tooted a brass horn to produce what occasionally sounded like the well known "Ach, Du Leiber Augustine." The significance, if any, of the ditty was not revealed and in a moment the procession of cars sped away in a blinding rain through the capitol grounds toward Bolling field.

The airmen strode into the station wearing the informal dress of men thinking more of comfort and necessities than looks.

The hurried schedule of the Bremen's crew resulted from two causes. They were anxious to come here and honor Bennett as inconspicuously as possible and, too, they have an engagement in New York today at 1 P. M. when their official welcome begins.

Burial of Bennett on a knoll overlooking the Potomac and the capital was as somber and gloomy a ceremony as could be imagined.

He lies near Admiral Robert E. Peary, first man to reach the pole. The crowd stood bare headed during the brief, austere, rites. In a little group near the lip of the rain-washed grave stood the flier's widow and beside her Commander Richard E. Byrd who discovered Bennett's worth and valued his friendship and ability beyond that of any other man. Mrs. Bennett stood bravely in the midst of the dismal scene until the first volley of Bennett's salute was fired by a detail of blue jackets. She shuddered as the echo rolled back from the Virginia hills. The plaintive notes of "taps" floated into the soggy air and as the significance of this summons to sleep bit deeply into the widow's consciousness she could stand it no longer and was led away before the flag draped coffin was lowered into the ground.

The flier's mother remained on the special car which brought the

DETACHMENTS OF MARINES LAND AT PUERTO CABEZAS

SEVERAL MARINE PLANES MAKE
DANGEROUS OVERLAND
TRIP EASILY

BELIEVE NEW REBEL ARMY MAY
BE DIRECTED BY GENERAL
JIRON

Puerto Cabezas, Nicaragua, April 28.—(U.P.)—An engagement between marines and the rebel army that recently raided the rich mines in northern Nicaragua was expected shortly, reports here said today.

Marine detachments are arriving regularly and several hundred troops are expected aboard the U. S. S. Cleveland Sunday.

Several marine planes arrived at Puerto Cabezas yesterday from Managua. They had made the dangerous overland trip easily.

Around Puerto Cabezas—where it was reported the rebel army might attack—everything was quiet.

Residents here had perfect confidence that the marine forces would be able to quell any outbreak and seemed pleased to receive the American forces.

Managua, Nicaragua, April 28.—Marine officials today believed that a new rebel army, under control of General Jiron, had taken the field.

Reports here said that General Jiron had dynamited the La Luz mine in the Pis Pis district of northern Nicaragua and was holding the American mining engineer, George B. Marshall, for ransom.

General Augustino Sandino, who has been in the lead of rebel activities, was reported ill of a fever and in hiding.

The reports here said that General Jiron's army was acting independently from the old Sandino army and this led to the belief that a new rebel force had started.

The new army was said to be composed of Hondurians, Costa Ricans and other Latin American rebels. There were said to be a few Nicaraguans in the army but reports said they were being used merely as guides.

There was nothing to substantiate this belief other than reports that Sandino had not been seen recently and that many of the rebels in the mine attack were said not to be Nicaraguans. Neither have officials here received official advices that Marshall was being held for ransom, but reports came in from the north that such was the case.

The belief grew that Sandino was ill and at least for the time had stopped activities.

Reports here said that he was suffering from a serious fever and with a small number of his personal guard had retired from actual combat.

Marine forces were said to be moving in rapidly on the rebels in the rich mining district of the north.

Washington, April 28.—Brigadier General Frank R. McCoy, President Coolidge's personal representative in Nicaragua, has been called to Washington for a consultation. It was said at the state department today. Whether his coming betokens a grave turn in the Nicaraguan situation as the result of reported increased rebel activities could not be learned, as official comment on the real purpose of his visit was withheld for the time being.

McCoy doubtless will confer with President Coolidge as well as with state department officials immediately on reaching here. It was suggested he would attempt to clear up the mystery surrounding the reported seizure by rebels of several American-owned mines.

Despite repeated denials by officials, it also was indicated additional troops might be sent to Nicaragua to reinforce the 2,800 marines already there. This movement, however, was expected to depend upon the outcome of the conference with McCoy.

Although no definite confirmation of new rebel movements has yet been

FLOYD OLSON DECLINES TO BE CANDIDATE

PASSES UP FARMER-LABOR CANDIDACY FOR GOVERNOR

SAYS PRESSING DUTIES MAKE IT
IMPOSSIBLE TO ACCEPT
HONOR

By JACK F. HIERTZ
Minneapolis, April 28.—(U.P.)—Floyd Olson, Hennepin county attorney, officially declined today to be a candidate for governor on the farmer-labor ticket.

The announcement declared that pressing duties made it impossible for him to accept the honor.

Olson's refusal came within two days after Sen. Henrik Shipstead, Minnesota senator, announced that he would again seek election on the third party ticket.

Olson's announcement leaves the third party without a standard bearer. Democrats of the state had sought to perfect a coalition whereby the two parties would support the Minneapolis attorney for the high office, and when approached with the proposition, Olson was silent.

Olson along with Shipstead was endorsed by the farmer-labor party of Minnesota. Olson steadfastly denied that he would accept the nomination as party leader for governor, and several times in the past two weeks, political leaders expected statements officially announcing his declination.

The lateness of the official statement, it was believed in political circles was to learn the trend of Shipstead. When the official statement came from Washington Thursday night that Shipstead would once more seek office as a farmer-laborite it was immediately learned that Olson was ready to make his official announcement.

Olson was waited upon by several members of the third party who sought to have him accept their endorsement, but he declined at every turn of the road to say he would be the standard bearer. It is known that Olson conferred with Gov. Theo. Christianson during the time it appeared likely that he would accept the leadership. While both men said the conference had nothing to do with politics, it was generally believed that the closed-door confab brought forth some idea of where Olson stood.

Olson as third party leader for governor at the last gubernatorial election was said to have borne most of the expense of his own campaign, and it was generally known that payment of some of the bills accrued during that campaign have just recently been paid. This was one condition to which Olson pointed when committeemen of the farmer-labor party sought him as their candidate for governor this year.

Olson in his statement expressed the belief that the farmer-labor candidate, whoever he may be, will be elected, and declared he would throw his whole support behind the man the third party selects as the standard bearer.

Such information as has been received at the state and navy departments would indicate that about 500 armed men are concentrated in the Pis-Pis mining area along the Prinzapolac river.

AS RESULT OF THE DEATH OF REP. MADDEN

CHICAGO DISTRICT IS ALMOST
TOTALLY A NEGRO
DISTRICT

HAS NEGRO REPRESENTATIVES
IN STATE LEGISLATURE AND
CHICAGO COUNCIL

By THOMAS W. STOKES
(United Press Staff Correspondent)

Washington, April 28.—Congress will have a negro member again for the first time since 1896 as result of the death of Rep. Martin B. Madden, republican, Illinois, it appeared certain today.

The Chicago district represented by Madden, whose sudden death in his capitol office yesterday shocked his colleagues, is almost totally a negro district, having negro representatives in the state legislature and city council. It recently chose two negro republican national committeemen.

Madden was opposed by three negroes in his recent race for re-election. His closest opponent, Wm. J. Dawson, whom he defeated by 13,000 votes, may be the next house member from the district. A special election probably will be held in June, when a state judges election is scheduled.

Negroes came to congress first in reconstruction days. There have been 20 in the house and two negro senators.

Speaker Longworth today will appoint a special house committee to attend the funeral in Chicago Monday, which will follow the usual honor paid the veteran house leader of a state funeral in the house chamber Sunday. A senate committee was appointed yesterday.

President Coolidge, Vice-President Dawes, cabinet members, the supreme court, the diplomatic corps, members of the house and senate, chief of naval operations, the army chief of staff and other officials will gather in the house chamber Sunday at noon for the special services in honor of Madden, who has served continuously in congress since March 4, 1905, and had been a republican leader for many years.

His body will lie in state in the house chamber after the service from one until two o'clock, and will be borne on a 3 o'clock train to Chicago for the funeral Monday at Hinsdale, a Chicago suburb, the old family home.

Madden was legislative harness at his death. The veteran legislator who was known as "the watchdog of the treasury" because of his opposition to excessive expenditures, had been on the floor a few minutes before his death and was discussing legislation in his office, just off the house floor, with Rep. Spruell, Illinois when he was stricken. He had just come from a sub-committee meeting in his office.

FATTY ARBUCKLE IS BARRED BY CITY COUNCIL, MINNEAPOLIS

Minneapolis, April 28.—(U.P.)—"Fatty" Arbuckle, former movie comedian and stage star was barred Friday from appearing at a local theatre by the Minneapolis city council. The motion to bar Arbuckle passed the council 24 to 2.

Arbuckle, who was a popular film comedian when Virginia Rappe, an actress, died after a party in San Francisco at which he was host, was charged with manslaughter in connection with her death. He was acquitted at his second trial.

BELA KUHN, ONCE DICTATOR, NOW IMPRISONED

Vienna, April 28.—(U.P.)—Bela Kuhn, who for five months ruled over Hungary as a virtual dictator, today was held in jail here because he broke a promise never to return to Austria and he may be sent back to Hungary to answer more than 100 charges of murder. He was arrested yesterday after it was alleged he had been sent from Moscow to propagandize Hungary.

HOUSE INSISTS FLOOD CONTROL BILL BE PASSED

Washington, April 28.—(UP)—The house insisted formally today upon the Mississippi flood control bill as passed by the house, and a conference with the senate was ordered to adjust differences between it and the senate bill.

Speaker Longworth named as house conferees, Reps. Reid, Ill.; Curry, Calif.; Roy Fitzgerald, Ohio; Wilson, La., and Driver, Ark., all members of the house flood control committee.

Arizona Selecting Its Republican National Delegates

Tucson, Ariz., April 28.—(UP)—Arizona's nine delegates to the republican national convention at Kansas City were to be selected by 200 representatives of the party who met here today.

Frank Lowden, former governor of Illinois, appeared to have the strongest following and it was held that he would receive Arizona's instructed delegation.

THREE MEN DROWNED IN VIOLENT SEA OFF ATLANTIC CITY

Atlantic City, N. J., April 28.—(UP)—Three men were drowned during a violent storm at sea off here last night. It was revealed today when four survivors were taken off a side-wheel steamer which broke loose from its towing tug.

Heavy seas made it impossible to rescue them.

BREMEN WILL NOT TRY TO FLY BACK TO GERMANY

Berlin, April 28.—(UP)—Hermann Koehl and Baron von Huenefeld will not try to fly back to Germany but will arrive at Bremerhaven May 21 on the liner Columbus, the newspaper Deutsche Tageszeitung said today.

The story was a denial of American reports that a return flight would be attempted.

SENATE AWARDS GOLD MEDAL TO LINCOLN ELLSWORTH

Washington, April 28.—(UP)—The senate late today passed a bill awarding a gold medal to Lincoln Ellsworth, who flew across the North Pole in the dirigible Norge in 1926. Sen. Bingham, republican, Connecticut, protested that Ellsworth was a rich American, who hired foreign aviation interests instead of Americans to make the flight.

DETACHMENTS OF MARINES LAND AT PUERTO CABEZAS

SEVERAL MARINE PLANES MAKE
DANGEROUS OVERLAND
TRIP EASILY

BELIEVE NEW REBEL ARMY MAY
BE DIRECTED BY GENERAL
JIRON

Puerto Cabezas, Nicaragua, April 28.—(UP)—An engagement between marines and the rebel army that recently raided the rich mines in northern Nicaragua was expected shortly, reports here said today.

Marine detachments are arriving regularly and several hundred troops are expected aboard the U. S. S. Cleveland Sunday.

Several marine planes arrived at Puerto Cabezas yesterday from Managua. They had made the dangerous overland trip easily.

Around Puerto Cabezas—where it was reported the rebel army might attack—everything was quiet.

Residents here had perfect confidence that the marine forces would be able to quell any outbreak and seemed pleased to receive the American forces.

Managua, Nicaragua, April 28.—Marine officials today believed that a new rebel army, under control of General Jiron, had taken the field.

Reports here said that General Jiron had dynamited the La Luz mine in the Pis Pis district of northern Nicaragua and was holding the American mining engineer, George B. Marshall, for ransom.

General Augustino Sandino, who has been in the lead of rebel activities, was reported ill of a fever and in hiding.

The reports here said that General Jiron's army was acting independently from the old Sandino army and this led to the belief that a new rebel force had started.

The new army was said to be composed of Hondurians, Costa Ricans and other Latin American rebels. There were said to be a few Nicaraguans in the army but reports said they were being used merely as guides.

There was nothing to substantiate this belief other than reports that Sandino had not been seen recently and that many of the rebels in the mine attack were said not to be Nicaraguans. Neither have officials here received official advices that Marshall was being held for ransom, but reports came in from the north that such was the case.

The belief grew that Sandino was ill and at least for the time had stopped activities.

Reports here said that he was suffering from a serious fever and with a small number of his personal guard had retired from actual combat.

Marine forces were said to be moving in rapidly on the rebels in the rich mining district of the north.

Washington, April 28.—Brigadier General Frank R. McCoy, President Coolidge's personal representative in Nicaragua, has been called to Washington for a consultation. It was said at the state department today, whether his coming betokens a grave turn in the Nicaraguan situation as the result of reported increased rebel activities could not be learned, as official comment on the real purpose of his visit was withheld for the time being.

McCoy doubtless will confer with President Coolidge as well as with state department officials immediately on reaching here. It was suggested he would attempt to clear up the mystery surrounding the reported seizure by rebels of several American-owned mines.

Despite repeated denials by officials, it also was indicated additional troops might be sent to Nicaragua to reinforce the 2,800 marines already there. This movement, however, was expected to depend upon the outcome of the conference with McCoy.

Although no definite confirmation of new rebel movements has yet been

FLOYD OLSON DECLINES TO BE CANDIDATE

PASSES UP FARMER-LABOR CANDIDACY FOR GOVERNOR

SAYS PRESSING DUTIES MAKE IT
IMPOSSIBLE TO ACCEPT
HONOR

By JACK F. HIERTZ
Minneapolis, April 28.—(UP)—Floyd Olson, Hennepin county attorney, officially declined today to be a candidate for governor on the farmer-labor ticket.

The announcement declared that pressing duties made it impossible for him to accept the honor.

Olson's refusal came within two days after Sen. Henrik Shipstead, Minnesota senator, announced that he would again seek election on the third party ticket.

Olson's announcement leaves the third party without a standard bearer. Democrats of the state had sought to perfect a coalition whereby the two parties would support the Minneapolis attorney for the high office, and when approached with the proposition, Olson was silent.

Olson along with Shipstead was endorsed by the farmer-labor party of Minnesota. Olson steadfastly denied that he would accept the nomination as party leader for governor, and several times in the past two weeks, political leaders expected statements officially announcing his declination.

The lateness of the official statement, it was believed in political circles was to learn the trend of Shipstead. When the official statement came from Washington Thursday night that Shipstead would once more seek office as a farmer-laborite it was immediately learned that Olson was ready to make his official announcement.

Olson was waited upon by several members of the third party who sought to have him accept their endorsement, but he declined at every turn of the road to say he would be the standard bearer. It is known that Olson conferred with Gov. Theodore Roosevelt during the time it appeared likely that he would accept the leadership. While both men said the conference had nothing to do with politics, it was generally believed that the closed-door confab brought forth some idea of where Olson stood.

Olson as third party leader for governor at the last gubernatorial election was said to have borne most of the expense of his own campaign, and it was generally known that payment of some of the bills accrued during that campaign have just recently been paid. This was one condition to which Olson pointed when committeemen of the farmer-labor party sought him as their candidate for governor this year.

Olson in his statement expressed the belief that the farmer-labor candidate, whoever he may be, will be elected, and declared he would throw his whole support behind the man the third party selects as the standard bearer.

AS RESULT OF THE DEATH OF REP. MADDEN

CHICAGO DISTRICT IS ALMOST
TOTALLY A NEGRO
DISTRICT

HAS NEGRO REPRESENTATIVES
IN STATE LEGISLATURE AND
CHICAGO COUNCIL

By THOMAS W. STOKES
(United Press Staff Correspondent)

Washington, April 28.—Congress will have a negro member again for the first time since 1896 as result of the death of Rep. Martin B. Madden, republican, Illinois, it appeared certain today.

The Chicago district represented by Madden, whose sudden death in his capitol office yesterday shocked his colleagues, is almost totally a negro district, having negro representatives in the state legislature and city council. It recently chose two negro republican national committeemen.

Madden was opposed by three negroes in his recent race for re-election. His closest opponent, Wm. J. Dawson, whom he defeated by 13,000 votes, may be the next house member from the district. A special election probably will be held in June, when a state judges election is scheduled.

Negroes came to congress first in reconstruction days. There have been 20 in the house and two negro senators.

Speaker Longworth today will appoint a special house committee to attend the funeral in Chicago Monday, which will follow the usual honor paid the veteran house leader of a state funeral in the house chamber Sunday. A senate committee was appointed yesterday.

President Coolidge, Vice-President Dawes, cabinet members, the supreme court, the diplomatic corps, members of the house and senate, chief of naval operations, the army chief of staff and other officials will gather in the house chamber Sunday at noon for the special services in honor of Madden, who has served continuously in congress since March 4, 1905, and had been a republican leader for many years.

His body will lie in state in the house chamber after the service from one until two o'clock, and will be borne on a 3 o'clock train to Chicago for the funeral Monday at Hinsdale, a Chicago suburb, the old family home.

Madden was legislative harness at his death. The veteran legislator who was known as "the watchdog of the treasury" because of his opposition to excessive expenditures, had been on the floor a few minutes before his death and was discussing legislation in his office, just off the house floor, with Rep. Sprull, Illinois when he was stricken. He had just come from a sub-committee meeting in his office.

FATTY ARBUCKLE IS BARRED BY CITY COUNCIL, MINNEAPOLIS

Minneapolis, April 28.—(UP)—"Fatty" Arbuckle, former movie comedian and stage star was barred Friday from appearing at a local theatre by the Minneapolis city council. The motion to bar Arbuckle passed the council 24 to 2.

Arbuckle, who was a popular film comedian when Virginia Rappe, an actress, died after a party in San Francisco at which he was host, was charged with manslaughter in connection with her death. He was acquitted at his second trial.

BELA KUHN, ONCE DICTATOR, NOW IMPRISONED

Vienna, April 28.—(UP)—Bela Kuhn, who for five months ruled over Hungary as a virtual dictator, today was held in jail here because he broke a promise never to return to Austria and he may be sent back to Hungary to answer more than 100 charges of murder. He was arrested yesterday after it was alleged he had been sent from Moscow to prepare Hungary.

People sometimes trust to evade by asking the question: "Well, tell me something noteworthy a young Scout has done." That sounds to them like a knockout. On the other hand, noteworthy feats are known to those within the organization but are rarely exploited outside. A boy-hero is a hero to his boy friends, not to Mr. and Mrs. So-and-so; and not much attempt is made to bally-hoo his deeds. He should learn to carry his honors humbly. However, let us quote a few samples of scouts who received special honor medals for unusual acts of heroism which were performed at the risk of their own lives and which involved courage, initiative, resourcefulness and scout training.

In 1927 the National Court of Honor presented 42 honor medals for reasons stated above. Can you picture 42 events in which Boy Scouts from 13 to 16 years of age conducted themselves in a manner befitting of special recognition. This means one event for nearly every week in the year. Unfortunately 3 boys lost their own lives helping others, who lived. One such was only a Tenderfoot, 13 years old. Another Tenderfoot, 15 years old, aided a capsized row boat. He saved his sister and a woman weighing 210 lbs. who could not swim; then attempted to help his brother who had been in the boat and weakened in his efforts to assist. In this last rescue both were drowned.

A 14 year old Scout performed heroic deeds in a hurricane tragedy in Ohio. He enabled the rescue of others from a large assembly tent, only to lose his life when his work had been performed by being struck on the head with a broken tent pole.

Many scouts have rescued other children from approaching trucks and trains under difficult conditions. Third-rail victims have been kept alive by artificial respiration. Girls whose dresses had caught afire and who were hysterical were taken in charge promptly and saved by applying simple methods and without injury to the victim.

Many cases were rescues of boys who had broken through thin ice. It requires a cool head to handle such a situation successfully.

One 16 year old Scout performed a high-class acrobatic feat in effecting the saving of three room-mates from the fourth story in an academy dormitory which was destroyed by fire. The episode reads like a fantastic tale.

And so the question can be answered, once a week and with a new feat to relate each time. Remember, these things arise on the spur of the moment; there is no time to prepare and discuss. If the initiative were not developed, and the way to handle these situations had not been explained and practiced in troop meetings and summer camps, no 13 or 14 or 16 year old boy would be able to perform so quickly, so intelligently and with so little loss.

CHICAGO DETECTIVE IS
SHOT AND KILLED BY
BANDITS HE SURPRISED

Chicago, April 28.—(UP)—Detective Arthur Esau, 37, was shot and killed last night in a north side drug store by bandits whom he surprised in a robbery.

The bandits had just bound and gagged a clerk and a customer in the back part of the store, and taken \$25 from the clerk, when Esau entered the front door, unaware of the robbery. When he went behind a counter in search of the clerk, the trapped bandits fired. The shots came before he could draw his revolver.

Esau was the fourth policeman killed by bandits this month and the eighth since the first of the year.

Marshall, Mo., April 28.—(UP)—George A. Malkmus, 28, of Kansas City, and Harold P. Hutchinson, 23, of Lake Minnetonka, Minn., were killed here late yesterday when the airplane in which they were flying crashed.

Malkmus was a ground instructor at the Marshall flying school and Hutchinson a flying student who was visiting the field. He was not enrolled in the school.

Hutchinson and Malkmus had been in the air about fifteen minutes when the plane went into a spin at 400 feet. The plane descended in wide circles and crashed. It did not burn.

Malkmus was dead when found. Hutchinson was taken to a hospital where he died a few minutes after being received.

Hutchinson had about fifty hours of flying and recently was practicing spinning.

BRAINERD
25 YEARS AGO

From the Daily Dispatch

April 28, 1903

A little child of Ray Warner is reported to have eaten lye by mistake night before last and Dr. J. A. Thabes was called just in the nick of time. A queer coincidence is the fact that the child of Mr. and Mrs. Peter Wicklund, who took lye by mistake, on the same evening, was the exact age of the Warner child.

Company F met for drill last night in Gardner hall and there was a very large attendance. The boys state that it was one of the best drills held in some time and Lieut. Heffner is being congratulated on his success in awakening new interest in the company.

The snow today is something unusual at this time of the year and those who are particularly interested in the coming of spring have been fooled.

The members of the cast who are to put on "Caprice" under the auspices of the Brainerd fire department, met last night for the first time at the central hose house.

Messrs. Halladay and Erickson, members of the board of education, who were appointed on a committee to go to the Twin Cities to look over the different heating plants, with a view to furnishing valuable information when the board gets ready to equip the new buildings with heating plants, left for St. Paul this afternoon.

Sunshine Workers

The Sunshine Workers class of the Presbyterian Sunday school was entertained at the home of Marion Falconer Friday evening, April 27. A business meeting was held after which a social hour was enjoyed and dainty refreshments were served by Mrs. Falconer. The next class meeting will be held at the home of Iona Cass, Friday, May 25.

Camp Fire Girls

The Camp Fire Girls of the Chesham, Otyokwa, Oawensa, Wadaka, Ohitaya and Tatapochoh camps will collect old papers and magazines during the week of May 5 to 12 inclusive. The girls are endeavoring to raise money to defray expenses for the summer months and will greatly appreciate it if the housewives will leave all their old papers and magazines on the porch during the above mentioned week.

People sometimes trust to evade by asking the question: "Well, tell me something noteworthy a young Scout has done." That sounds to them like a knockout. On the other hand, noteworthy feats are known to those within the organization but are rarely exploited outside. A boy-hero is a hero to his boy friends, not to Mr. and Mrs. So-and-so; and not much attempt is made to bally-hoo his deeds. He should learn to carry his honors humbly. However, let us quote a few samples of scouts who received special honor medals for unusual acts of heroism which were performed at the risk of their own lives and which involved courage, initiative, resourcefulness and scout training.

In 1927 the National Court of Honor presented 42 honor medals for reasons stated above. Can you picture 42 events in which Boy Scouts from 13 to 16 years of age conducted themselves in a manner befitting of special recognition. This means one event for nearly every week in the year. Unfortunately 3 boys lost their own lives helping others, who lived. One such was only a Tenderfoot, 13 years old. Another Tenderfoot, 15 years old, aided a capsized row boat. He saved his sister and a woman weighing 210 lbs. who could not swim; then attempted to help his brother who had been in the boat and weakened in his efforts to assist. In this last rescue both were drowned.

A 14 year old Scout performed heroic deeds in a hurricane tragedy in Ohio. He enabled the rescue of others from a large assembly tent, only to lose his life when his work had been performed by being struck on the head with a broken tent pole.

Many scouts have rescued other children from approaching trucks and trains under difficult conditions. Third-rail victims have been kept alive by artificial respiration. Girls whose dresses had caught afire and who were hysterical were taken in charge promptly and saved by applying simple methods and without injury to the victim.

Many cases were rescues of boys who had broken through thin ice. It requires a cool head to handle such a situation successfully.

One 16 year old Scout performed a high-class acrobatic feat in effecting the saving of three room-mates from the fourth story in an academy dormitory which was destroyed by fire. The episode reads like a fantastic tale.

And so the question can be answered, once a week and with a new feat to relate each time. Remember, these things arise on the spur of the moment; there is no time to prepare and discuss. If the initiative were not developed, and the way to handle these situations had not been explained and practiced in troop meetings and summer camps, no 13 or 14 or 16 year old boy would be able to perform so quickly, so intelligently and with so little loss.

CHICAGO DETECTIVE IS
SHOT AND KILLED BY
BANDITS HE SURPRISED

Chicago, April 28.—(U.P.)—Detective Arthur Esau, 37, was shot and killed last night in a north side drug store by bandits whom he surprised in a robbery.

The bandits had just bound and gagged a clerk and a customer in the back part of the store, and taken \$25 from the clerk, when Esau entered the front door, unaware of the robbery. When he went behind a counter in search of the clerk, the trapped bandits fired. The shots came before he could draw his revolver.

Esau was the fourth policeman killed by bandits this month and the eighth since the first of the year.

DEERWOOD, AITKIN COMPETES

Winners to Appear at Arrowhead
Institute at Barnum
in July

About thirty members of the Epworth League of the Methodist church motored to Deerwood last evening where they attended the subdistrict rally. A banquet was served at 6:30 o'clock after which chosen delegates from Brainerd, Deerwood and Aitkin competed in the Bible story telling contest and Miss Clarice Halvorson of Brainerd won first prize which will entitle her to compete with other winners of the district at Arrowhead Institute at Barnum in July.

Dr. H. McCrea, district superintendent, gave a very interesting and humorous talk after which Professor Morrill of Hamline university delivered the main address of the evening on the church in relation to every day life. Delegates from Hill City, Aitkin and Brainerd were represented and many hope to meet again at Barnum in July.

COUPLE WED FIFTY

Marriage vows will be renewed and the same best man and bride's maid that waited upon them fifty years ago will go through the same ceremony tomorrow morning, Monday, April 23, in the Church of the Blessed Sacrament when Mr. and Mrs. John Ernster of 6830 Sunset Boulevard celebrate their golden wedding anniversary. Mr. and Mrs. Ernster have four children, J. P. Ernster, H. J. Ernster and O. P. Ernster of Los Angeles, and Sister Clarilla, O. S. B., of Minneapolis. Three grandchildren also will witness the anniversary celebration.—Los Angeles Times, Los Angeles, Calif.

TWO KILLED WHEN

PLANE CRASHES

Marshall, Mo., April 28.—(U.P.)—George A. Malkmus, 28, of Kansas City, and Harold P. Hutchinson, 23, of Lake Minnetonka, Minn., were killed here late yesterday when the airplane in which they were flying crashed.

Malkmus was a ground instructor at the Marshall flying school and Hutchinson a flying student who was visiting the field. He was not enrolled in the school.

Hutchinson and Malkmus had been in the air about fifteen minutes when the plane went into a spin at 400 feet. The plane descended in wide circles and crashed. It did not burn.

Malkmus was dead when found. Hutchinson was taken to a hospital where he died a few minutes after being received.

Hutchinson had about fifty hours of flying and recently was practicing spinning.

FRESH EARTHQUAKES

some time. A quarter of a century later I was engaged in the real estate business in Tacoma and mining in Oregon with Haney, who is now in business in Medford.

The most thrilling fight to a finish I ever saw was at Crow Wing, and I never wanted to see another, even a prize fight. Two lumberjack giants, Jim Rush and Jerry Bertrand, Irish and French, about equal in weight and build, about 300 pounders, with an old grudge they had tried a number of times to fight out but always parted or prevented, chanced to meet in Crow Wing, on separate river drives. After a few drinks they were allowed to fight it out under Marquis of Dogberry rules, without seconds, referee, attendants or interference and a good deal of the time at last without an audience. They smashed tables, chairs, everything and everybody that came in their way, rolling on the floor, straining, smashing, panting, watching for an opening, striking, biting, gouging, squirming, but never a word or sound above their heavy breathing and grunting, for hours at a time. They fought all day, all night and most of the next day, without stopping to eat or drink, until at last they mutually agreed to call it a draw. One had an ear bitten off, the other his nose and a finger. Both were covered with cuts, bruises, blood, mud, slime, saliva and everything but clothes. After it was over they were the best of friends, drank together and went together to have their wounds dressed, not seeming to notice any one but themselves, any more than if they had been in the wilderness alone.

Nor was my Crow Wing experience without its romance. Nearly all men of my acquaintance there had Indian wives: Fred Peake, all of the county commissioners, C. H. Beaulieu, father of Clem, Frank Campbell, John George Morrison, Albert Fairbanks, Bill Wade and many others too numerous to mention. Neither does this appear so strange as one comes to know the Indian in his native state—the noblest savage that lives. Magnificent in physique, intellectually a philosopher, in discourse, an orator, on parade picturesque, in warfare brave, in perception, observation and resource unsurpassed by savage or civilized.

When I worked for Lynde & Wade I took my meals over the store and became well acquainted with Wade's fast every morning, by stage, of the

rapid growth of the new town that was wide open, the sky being the limit. Murders, gambling stories, hold-ups, true lies and damned lies—everything was believed that came from "The Crossing."

Many business men and residents of Crow Wing clung to the old town several years, but gradually all eventually yielded to the inevitable. It came hard to realize the power of

the iron horse. Most of them moved to the new town—those who owned their buildings tearing them down.

LIVE DAYS IN HISTORIC CROW WING
By W. W. HARTLEY
NOTE—Crow Wing County Historical society welcomes reminiscences of early days. Send same to S. R. Adair, president, or to L. E. Kinder, historian.

When the payments were over my job ended and I returned to Crow Wing and worked for Lynde & Wade for my board waiting for something better, which came later in an offer from Peake & Wakefield, in their store, under my friend Clem, who was chief clerk and bookkeeper.

It was a favorite custom among the young Indians and mixed bloods to "initiate" a new-comer by beating him up, after which they would fight for him as readily as any one of their own number. They set out one evening to give me mine but I declined to go against about a dozen at once and it never came off. The most notable failure of the gang took place one evening at a dance in a large vacant store building opposite Peake & Wakefield's store, when they bit off more than they could chew. This was staged for Jim Van Ransler, the big express agent, who weighed upwards of 300, and his friend, Burt Haney, 280 pounds, both muscular giants, over six feet without a pound of surplus flesh and hands like hams. I first noticed all the girls suddenly disappeared and knew something was coming. I remembered I had business across the street and went out the front door as the gang came boisterously in the rear. Some one shot out the lights and the war was on. I found Clem recording deeds in his office over the store and we smoked and listened to the tornado. Forty-seven mules all kicking at once would have appeared a Quaker meeting beside it. Jim and Burt backed against the wall where the stools were thickest, taking a stool in each hand. Next morning there were few stools left, but bandaged heads, arms in slings, etc., were plenty. It was risky business asking questions about their bruises for

When the payments were over my job ended and I returned to Crow Wing and worked for Lynde & Wade for my board waiting for something better, which came later in an offer from Peake & Wakefield, in their store, under my friend Clem, who was chief clerk and bookkeeper.

It was a favorite custom among the young Indians and mixed bloods to "initiate" a new-comer by beating him up, after which they would fight for him as readily as any one of their own number. They set out one evening to give me mine but I declined to go against about a dozen at once and it never came off. The most notable failure of the gang took place one evening at a dance in a large vacant store building opposite Peake & Wakefield's store, when they bit off more than they could chew. This was staged for Jim Van Ransler, the big express agent, who weighed upwards of 300, and his friend, Burt Haney, 280 pounds, both muscular giants, over six feet without a pound of surplus flesh and hands like hams. I first noticed all the girls suddenly disappeared and knew something was coming. I remembered I had business across the street and went out the front door as the gang came boisterously in the rear. Some one shot out the lights and the war was on. I found Clem recording deeds in his office over the store and we smoked and listened to the tornado. Forty-seven mules all kicking at once would have appeared a Quaker meeting beside it. Jim and Burt backed against the wall where the stools were thickest, taking a stool in each hand. Next morning there were few stools left, but bandaged heads, arms in slings, etc., were plenty. It was risky business asking questions about their bruises for

LIVE DAYS IN HISTORIC CROW WING
By W. W. HARTLEY
NOTE—Crow Wing County Historical society welcomes reminiscences of early days. Send same to S. R. Adair, president, of to L. E. Kinder, historian.

When the payments were over my job ended and I returned to Crow Wing and worked for Lynde & Wade for my board waiting for something better, which came later in an offer from Peake & Wakefield, in their store, under my friend Clem, who was chief clerk and bookkeeper.
It was a favorite custom among the young Indians and mixed bloods to "initiate" a new-comer by beating him up, after which they would fight for him as readily as any one of their own number. They set out one evening to give me mine but I declined to go against about a dozen at once and it never came off. The most notable failure of the gang took place one evening at a dance in a large vacant store building opposite Peake & Wakefield's store, when they bit off more than they could chew. This was staged for Jim Van Ransler, the big express agent, who weighed upwards of 300, and his friend, Burt Haney, 280 pounds, both muscular giants, over six feet without a pound of surplus flesh and hands like hams. Some one shot out the lights and the war was on. I found Clem recording deeds in his office over the store and we smoked and listened to the tornado. Forty-seven mules all kicking at once would have appeared a Quaker meeting beside it. Jim and Burt backed against the wall where the stools were thickest, taking a stool in each hand. Next morning there were few stools left, but bandaged heads, arms in slings, etc., were plenty. It was risky business asking questions about their bruises for

some time. A quarter of a century later I was engaged in the real estate business in Tacoma and mining in Oregon with Haney, who is now in business in Medford.
The most thrilling fight to a finish I ever saw was at Crow Wing, and I never wanted to see another, even a prize fight. Two lumberjack giants, Jim Rush and Jerry Bertrand, Irish and French, about equal in weight and build, about 300 pounders, with an old grudge they had tried a number of times to fight out but always parted or prevented, chanced to meet in Crow Wing, on separate river drives. After a few drinks they went at it and by common consent were allowed to fight it out under Marquis of Dogberry rules, without seconds, referee, attendants or interference and a good deal of the time at last without an audience. They smashed tables, chairs, everything and everybody that came in their way, rolling on the floor, straining, smashing, panting, watching for an opening, striking, biting, gouging, squirming, but never a word or sound above their heavy breathing and grunting, for hours at a time. They fought all day, all night and most of the next day, without stopping to eat or drink, until at last they mutually agreed to call it a draw. One had an ear bitten off, the other his nose and a finger. Both were covered with cuts, bruises, blood, mud, slime, saliva and everything but clothes. After it was over they were the best of friends, drank together and went together to have their wounds dressed, not seeming to notice any one but themselves, any more than if they had been in the wilderness alone.
Nor was my Crow Wing experience without its romance. Nearly all men of my acquaintance there had Indian wives: Fred Peake, all of the county commissioners, C. H. Beaulieu, father of Clem, Frank Campbell, John George Morrison, Albert Fairbanks, Bill Wade and many others too numerous to mention. Neither does this appear so strange as one comes to know the Indian in his native state—the noblest savage that lives. Magnificent in physique, intellectually a philosopher, in discourse an orator, on parade picturesque, in warfare brave, in perception, observation and resource unsurpassed by savage or civilized.

Neither does this appear so strange as one comes to know the Indian in his native state—the noblest savage that lives. Magnificent in physique, intellectually a philosopher, in discourse an orator, on parade picturesque, in warfare brave, in perception, observation and resource unsurpassed by savage or civilized.

When I worked for Lynde & Wade I took my meals over the store and became well acquainted with Wade's fast every morning, by stage, of the

wife, Misha-beek, a very estimable woman, an excellent cook and exceptionally tidy housekeeper. One morning when I went to breakfast a very pretty, blushing little Indian maiden of about sixteen, tastefully dressed in bright calicos and ribbons, with a long, heavy braid of glossy black hair down her back, brought in my breakfast and took her seat to wait on me, which she did perfectly. Returning to the store Bill asked how I liked her. I told him she was a peach. He then told me she was a niece of his wife, who had sent for her for me. I then understood the breakfast scene and felt sorry for the pretty little thing, but told Bill very emphatically "Nothing doing."

M. C. Kimberley, chief engineer of the Northern Pacific, was there in charge of engineers who had located two surveys, the first skirting the shores of Mille Lacs, crossing the Mississippi at Crow Wing and on to Otter Tail City and Breckenridge; the other, the present route, touching the Mississippi at the mouth of Mud River, now called Aitkin, and crossing the river where Brainerd afterwards grew. Mr. Kimberley's headquarters were at the residence of Clement H. Beaulieu, Sr., father of my friend Clem, who owned the townsite of Crow Wing, and it was understood negotiations were being concluded for an interest in the townsite, assuring the crossing at this point. Gossip, even hinted a matrimonial engagement on the side. The inside of these negotiations never was known, but when the startling intelligence came that construction work was under way on the upper route, it was assumed that Uncle "Clem" had driven too hard a bargain, was only a bluff and the road could not afford to leave out the thriving towns of Crow Wing and Otter Tail. But it did.

History developed rapidly after this. A wagon road was opened to "The Crossing," as it was called until it took the name of one of the directors of the road, Lawrence Brainerd, who sent Lyman P. White, the best natured townsite agent in the world, to plat the town, sell lots and build a city. The stages took the other route and Crow Wing became a way station instead of a terminus. Teams, pack-trains, pedestrians and paraphernalia of many kinds flooded the road from Sauk Rapids, through Crow Wing to "The Crossing." News came for breakfast every morning, by stage, of the

A Quality Car of Most Modern Design

The new Whippet Six is a car of most amazing performance. In a 24-hour run it averaged 56.52 miles per hour—the world's record for cars costing less than \$1000.

Long, low-slung bodies in harmonious lacquers, and smart interiors attractively upholstered, give unusual distinction.

Equipment includes automatic windshield cleaner (on closed models), rear view mirror, dome light in Sedan and Coach, tail and stop light, snubbers, 80 mile speedometer, motor driven horn, spare rim and tire carrier.

Whippet Six is now on display, ready for your inspection.

BEAUTIFUL SPRINGTIME

SPRING is here with sweet flowers, its sweet atmosphere and its sweet—katchoo, katchum—its sweet colds, remarks the Hastings Gazette in an extended review of the added attributes which this season of the year is endowed with.

Nature is wonderful, is it not?

To think that it has only been six or seven months since it was time to start the coal stove and now spring is here again and in another six or seven months we can take the coal stove apart, clean the pipes, and set it up in another corner of the domicile.

By the Fourth of July we can take off the storm windows and polish them up nicely so they will be ready to put on again by the fifth or sixth of July. And by the fifteenth of August, if everything moves along smoothly, we may possibly be able to plant an early potato or two. Yes, spring in Minnesota is indeed wonderful. It keeps us wondering most of the time.

First we wonder if the coal is going to last; then we wonder if another ton will do the business and finally we end up by wondering if it wouldn't be a good idea to take up our abode in the Hawaiian Islands or some other far off clime that boasts of at least three months warm weather.

But we never do it. About the time we are ready to order our reservations, the morning paper tells us of a volcanic eruption in the Hawaiian Islands—or wherever our intended destination may have been—and we compromise by ordering another ton of coal and staying where Providence has placed us.

And some day, no doubt, we'll be thankful that we remained. There may still be another springtime in Minnesota's calendar of seasons and where is the native born Minnesotan who wants to miss it when it finally arrives?

The Dispatch bears witness to the vagaries of some spring times in Minnesota, but on the average crops come through and the tourist business and lake season continue to flourish. And many of the weather experts who growl at a cool spring, take umbrage when a red hot summer puts in an appearance. It is difficult to please everybody so far as weather is concerned. Even a vote of the people on the question would reveal inconsistencies.

UPPER MISSISSIPPI RIVER NAVIGATION

THAT Congressman Harold Knutson keeps tab on all possible developments in his district is evidenced by the letter he recently wrote to B. F. Carter, secretary of the St. Cloud Chamber of Commerce, referring to a survey he has proposed of the Mississippi river between Minneapolis and Brainerd with a view to determining its adaptability for navigation.

The letter to Mr. Carter, of which a copy was sent the Brainerd Dispatch, follows:

"Immediately upon receipt of your letter of the 20th, together with enclosed clipping from the J. P., I called on the Chairman of the Rivers and Harbors Committee of the House and requested that the next rivers and harbors bill, which will be reported out next week, carry an item for a survey of the Mississippi river between Minneapolis and Brainerd with view to determining its adaptability for navigation.

"My request is today being transmitted to the Chief of Engineers of the Army, who passes upon the feasibility of these requests for the committee. We will know within a week or ten days whether or not we are successful.

"I have had this thing in mind for the past two years, but thought it advisable to hold the matter in abeyance until we had had an opportunity to study the operation of the barge line now being operated as far north as Minneapolis. I realize what the successful operation of a barge line on the upper Mississippi would mean to our section of the country in the way of cheaper freight rates, etc., and I have no doubt but that it would prove a boon to our granite producers and to the ore interests on the Cuyuna range. From every angle it would be a mighty fine thing if Brainerd could be made the head of navigation as every city and hamlet would benefit immeasurably from this improvement, if feasible.

"Very sincerely yours,
"Harold Knutson."

WHO REALLY PAID?

ONCE upon a time, there were three competing mousetrap makers, all doing about the same amount of business. Each charged the trade twenty cents a trap. The merchant retailed it for thirty cents.

One day one of the manufacturers decided to spend one cent per trap to advertise. He did not raise his price to the dealer, and the dealer did not raise his price to the public.

The advertising trap maker kept up the advertising for a couple of years, when it was found that his business had grown to such volume that he could build better machinery. So, instead of turning out a trap for fifteen cents, by quantity production he could make a better trap for ten cents. Thus he was able to sell to the dealer for fifteen cents and the dealer sold it to his customers for twenty-five cents.

Now, who paid for the advertising? Not the consumer, who now got a better trap for less money. Not the dealer, because he now made a better percentage of profit, gave his customers better value and made a quicker turnover.

Neither did the manufacturer pay for the advertising, because he now sold so many more than where he used to make five cents profit per trap and sold a thousand a day, he now made three cents per trap and sold three thousand a day.

He was selling three times as many traps. Yet the supply of mice had not increased like that.

By looking closer it is discovered that the other two mousetrap men had gone out of business.

The men who really paid for this advertising were the two who had not advertised, and who paid with their business. If the non-advertisers only realized it, while they are talking about the needless expense of advertising, they are really paying the advertisers' advertising bills.—Bemidji Daily Pioneer.

THERE is every assurance that Brainerd's lake region and Brainerd will have one of the best tourist seasons in history this year.

LAKE property is meeting with a ready sale, as witness the successful use of want ads in Dispatch columns.

GLORIOUS BETSY

NOVELIZED BY
ARLINE DE HAAS

"GLORIOUS BETSY," starring Dolores Costello, is a Warner Bros. picture of this novel. Based on the play by Rida Johnson Young.

SYNOPSIS

Five men are seated around a table at the old Sweet Springs Inn, winding up an all-night card game. Dason is breaking. A stranger passing the Inn has stopped outside the open casement, attracted by the shattering of a wineglass within. He lingers for a moment, taking in the scene before him. Four of the players in the room are beginning to take stock of their winnings, arranging the gold in neat piles. The fifth, Preston, stays then suddenly with the mumbled words: "Wait a minute, I'm not through yet. Got one more stake to play."

CHAPTER I.—Continued

He was fumbling about inside the bosom of his voluminous white shirt, his head drooping languidly. At last he drew forth a small case, pressed a spring, and the tiny oval flew open. He stared at the contents for a few moments with unseeing eyes, and then he threw the object out on the table, face up. One by one the other players leaned across the board and then they gasped.

"Phew!" one of them drew his breath with a sharp intake. "Betsy Patterson!"

The others nodded and examined more closely the delicate miniature set about with tiny diamonds. "Egad! I'll risk anything for that!" another exclaimed, getting

reached his sword, so lightly flung across the seat of the chair hours earlier. He seized the weapon, swinging it easily with a quick twist of his wrist, and then settled it steadily in his hand. The players jumped to their feet and rushed towards their companion.

"Here, the man has no weapon," someone spoke, but the words were scarcely out as the tutor seized one of the swords from the wall and stood on the defensive. And none too soon. For Preston was pushing his friends aside and already lunging at his opponent.

Like lightning his sword shot out, flashing fire. With a quick zip it cut the air. And then steel struck steel, and little sparks spat for a moment. The man in black had parried the thrust, and Preston's sword came clanging down, cutting across the weapon of his opponent. And the man in black was in the corner watching Preston from narrowed eyes. Then with a jerk he straightened up, his head high, the shock of the impact over.

Now he played for time for the moment. He gazed steadily on his opponent. The short upper lip curled to meet the long nose. Then, with a quick step, he struck, forcing his antagonist to accept the defensive, whether he would or no. With sudden speed Preston was forced back. Step by step, thrust by thrust, the man in black pushed his way, warily, like a cat, watch-

With each thrust he took a short step.

up from his chair and walking about the table to gaze at the pliant face that glanced haughtily from the ivory ground.

"I'll stake it against a hundred pounds," Preston pointed to the miniature. "It was given me by Glorious Betsy, herself!"

The other players gazed at Preston in astonishment. That a lady's portrait should become the stake in a gambling game! Some of them shook their heads and frowned.

"A hundred pounds—against that! Done!" one of the players muttered.

"You lie, sir!" At the sound of these words the players jumped and turned to stare in amazement at the window from whence came the exclamation. There stood the figure in black that had been, all unseen, leaning against the window, surveying the occupants of the room. With a leap he had cleared the low casement and now loomed before them, a darker figure than ever in the dim light of the room.

"You lie!" he repeated, glowering at Preston. "Mistress Patterson is not the one to give her portrait to any gambler!" He spat the last word out in a manner that definitely established the insult.

For a moment the little group at the table gazed at this intruder who stood glaring belligerently at the offender. The intruder planted himself squarely on his two feet, his hands clasped behind his back, his dark eyes snapping. Then Preston jumped to his feet. He swayed shakily, grasping the table with his hands to steady himself. Then he pulled himself together and walked out from behind the table as surely as though he had awakened from a night's sleep.

"You'll pay for those words," he took a step forward and faced the man in black. "You damned, foreign school teacher." His hand reached out and grasped his chair and sent it hurtling behind him.

"I am at your service, sir," the foreign school teacher, so dubbed, bowed ironically. "Swords—pistols—what you please." He stood at attention, awaiting the first move of the challenger. Well built, stocky, square shouldered, firm, he waited. The only sign of emotion he showed was in the slight quivering of the nostrils of his long, finely chiseled nose. His short upper lip was drawn into a set line, and the round chin was thrust forward. But his waiting was of short duration.

With a quick step Preston had

Spirits Strut Through Scenes in Esther Ralston Comedy

Ghosts will strut about the screen at the Lyceum theatre Sunday when Esther Ralston's latest Paramount starring vehicle, "Something Always Happens," is presented there for one day.

The plot centers around a girl seeking adventure, being tired of a cut-and-dried existence in a staid old English household. She enters a deserted, haunted house and from the moment she sets foot in it, things start to happen. Ghosts walk, chairs roll away, doors slam without human assistance, mysterious phosphorescent eyes blink and sinister faces peer at her.

Thus he was able to sell to the dealer for fifteen cents and the dealer sold it to his customers for twenty-five cents.

Now, who paid for the advertising? Not the consumer, who now got a better trap for less money. Not the dealer, because he now made a better percentage of profit, gave his customers better value and made a quicker turnover.

Neither did the manufacturer pay for the advertising, because he now sold so many more that where he used to make five cents profit per trap and sold a thousand a day, he now made three cents per trap and sold three thousand a day.

He was selling three times as many traps. Yet the supply of mice had not increased like that.

By looking closer it is discovered that the other two mousetrap men had gone out of business.

The men who really paid for this advertising were the two who had not advertised, and who paid with their business. If the non-advertisers only realized it, while they are talking about the needless expense of advertising, they are really paying the advertisers' advertising bills.—*Benidji Daily Pioneer.*

GLORIOUS BETSY

NOVELIZED BY
ARLINE DE HAAS

Copyright 1928, Warner Bros. Pictures, Inc.
"GLORIOUS BETSY," starring Dolores Costello, is a Warner Bros. picture of this novel. Based on the play by Rida Johnson Young.

SYNOPSIS
Five men are seated around a table at the old Sweet Springs Inn, winding up an all-night card game. Dawn is breaking. A stranger passing the Inn has stopped outside the open casement, attracted by the shattering of a wineglass within. He lingers for a moment, taking in the scene before him. Four of the players in the room are beginning to take stock of their winnings, arranging the gold in neat piles. The fifth, Preston, stays there, suddenly with the mumbled words: "Wait a minute, I'm not through yet. Got one more stake to play."

CHAPTER I.—Continued

He was fumbling about inside the bosom of his voluminous white shirt, his head drooping languidly. At last he drew forth a small case, pressed a spring, and the tiny oval flew open. He stared at the contents for a few moments with unseeing eyes, and then he threw the object out on the table, face up. One by one the other players leaned across the board and then they gaped.

"Phew!" one of them drew his breath with a sharp intake. "Betsy Patterson!"

The others nodded and examined more closely the delicate miniature set about with tiny diamonds.

"Egad! I'll risk anything for that!" another exclaimed, getting

reached his sword, so lightly flung across the seat of the chair hours earlier. He seized the weapon, swinging it easily with a quick twist of his wrist, and then settled it steadily in his hand. The players jumped to their feet and rushed towards their companion.

"Here, the man has no weapon," someone spoke, but the words were scarcely out as the tutor seized one of the swords from the wall and stood on the defensive. And none too soon. For Preston was pushing his friends aside and already lunging at his opponent.

Like lightning his sword shot out, flashing fire. With a quick zip it cut the air. And then steel struck steel, and little sparks spat for a moment. The man in black had parried the thrust, and Preston's sword came clanging down, cutting across the weapon of his opponent. And the man in black was in the corner watching Preston from narrowed eyes. Then with a jerk he straightened up, his head high, the shock of the impact over.

Now he played for time for the moment. He gazed steadily on his opponent. The short upper lip curled to meet the long nose. Then, with a quick step, he struck, forcing his antagonist to accept the defensive, whether he would or no. With sudden speed Preston was forced back. Step by step, thrust by thrust, the man in black pushed his way, warily, like a cat, watch-

With each thrust he took a short step.

up from his chair and walking about the table to gaze at the piquant face that glanced haughtily from the ivory ground.

"I'll stake it against a hundred pounds," Preston pointed to the miniature. "It was given me by Glorious Betsy, herself!"

The other players gazed at Preston in astonishment. That a lady's portrait should become the stake in a gambling game! Some of them shook their heads and frowned.

"A hundred pounds—against that! Done!" one of the players muttered.

"You lie, sir!"
At the sound of these words the players jumped and turned to stare in amazement at the window from whence came the exclamation. There stood the figure in black that had been, all unseen, leaning against the window, surveying the occupants of the room. With a leap he had cleared the low casement and now loomed before them, a darker figure than ever in the dim light of the room.

"You lie!" he repeated, glowering at Preston. "Missus Patterson is not the one to give her portrait to any gambler!" He spat the last word out in a manner that definitely established the insult.

For a moment the little group at the table gazed at this intruder who stood glaring belligerently at the offender. The intruder planted himself squarely on his two feet, his hands clasped behind his back, his dark eyes snapping. Then Preston jumped to his feet. He swayed shakily, grasping the table with his hands to steady himself. Then he pulled himself together and walked out from behind the table as surely as though he had awakened from a night's sleep.

"You'll pay for those words," he took a step forward and faced the man in black. "You damned, foreign school teacher." His hand reached out and grasped his chair and sent it hurtling behind him.

"I am at your service, sir," the foreign school teacher, so dubbed, bowed ironically. "Swords—pistols—what you please." He stood at attention, awaiting the first move of the challenger. Well built, stocky, square shouldered, firm, he waited. The only sign of emotion he showed was in the slight quivering of the nostrils of his long, finely chiseled nose. His short upper lip was drawn into a set line, and the round chin was thrust forward. But his waiting was of short duration.

Preston stared after the departing figure and turned to his friends. "A school teacher!" one of them gasped. "And he easily defeats the best swordsman in Virginia."

With a quick step Preston had

ing each move of his victim; forcing the victim to play, and yet never allowing him any opening to return the blows. With vicious little strokes he kept up this annoying game, guarding himself with an ease and striking with a surety that held the onlookers spellbound.

Now with quicker, shorter strokes the school teacher was forcing his way. With each thrust he took a short step. With each step he was driving his opponent more surely into a corner. Diagonally across the room the two went, Preston watching for an opportunity to break through the other's guard; the other watching that no such opportunity came to his antagonist.

Quicker! Quicker! Until the clashing steel struck sparks. Backward! Backward! Until Preston was in the opposite corner and forced to defend himself under those relentless strokes raining on his steel, allowing him no opportunity to do more than guard himself.

But a moment. And then with a sudden slash of his sword the steel flashed and the man in black struck. Preston's weapon went hurtling through the air, quivered for an instant as it struck into the floor in the opposite corner and then dropped with a dull thud. Preston seized the wrist of his sword arm with a sudden, spasmodic gesture, and his face went white, and his lips compressed. The man in black rested, stepping back.

Then as Preston's friends rushed to him the school teacher darted toward the table. He flung his sword across a chair and bent over the miniature that reposed so complacently in the center of the board, the silent cause of all the trouble.

Then he picked up the portrait, closed the case and placed it carefully in his pocket. With a smile he drew a heavy purse from another pocket and held it up, shaking it.

"Monsieur!" He commanded the attention of Preston, whose friends dropped back. "In payment for that which you seem to value much, clicking his heels together, and tossed the purse on the table. With another bow he stepped towards the window, over the casement and out.

Preston stared after the departing figure and turned to his friends. "A school teacher!" one of them gasped. "And he easily defeats the best swordsman in Virginia."

Spirits Strut Through Scenes in Esther Ralston Comedy

Ghosts will strut about the screen at the Lyceum theatre Sunday when Esther Ralston's latest Paramount starring vehicle, "Something Always Happens," is presented there for one day.

The plot centers around a girl seeking adventure, being tired of a cut-and-dried existence in a staid old English household. She enters a deserted, haunted house and from the moment she sets foot in it, things start to happen. Ghosts walk, chairs roll away, doors slam without human assistance, mysterious phosphorescent eyes blink and sinister faces peer at her.

PLANE IS DAMAGED IN FORCED LANDING

Waco Airplane From St. Paul Breaks
Wheel and Propeller,
Damages Wings

THREE OCCUPANTS INJURED

Shot Nose Down Into Rocky Field
Near Noon Hour at 6th
Street Mine

The Waco airplane piloted by Roger Sergeant, St. Paul airman, crashed here in landing on the rocky field adjoining the Sixth street mine this morning, breaking one wheel, the propeller and damaging the wings considerably.

The occupants, Roger Sergeant, Carl Anderson, mechanic, and H. W. Cress, photographer of the Raybell Co., St. Paul, escaped with minor injuries.

The plane went nose down in the field when one of the wheels crumpled as it struck the ground. The three occupants were thrown forward in their seats, receiving bruises on their foreheads.

Mr. Sergeant stated to a representative of the Dispatch at the scene of the crash that he was unfamiliar with landing fields in and around Brainerd and that he took a chance on landing on the only field he thought feasible.

The plane left St. Paul at 9:10 a. m. and came to their unfortunate landing in Brainerd at 11:05 a. m. The plane was on its way to Manhattan Beach and Pequot Shady Shores where pictures were to have been taken on the property for the Kavli Realty Co., of Minneapolis.

Mr. Sergeant this morning wired St. Paul for a new propeller while other parts of the plane were to be welded here. Work on repairing the plane was being done this afternoon.

A. C. Kavli, Minneapolis, and Basil T. Heath, Brainerd, were awaiting the flyers at the Gruenhagen field but failed to attract the attention of the flyers to land there.

KAPPA DELPHIANS

To Meet Tuesday to Discuss Topic of
"Four New England
Poets"

Kappa Delphian Chapter will meet Tuesday, 2:30 P. M. at 607 Holly street to discuss "Four New England Poets."

Mrs. G. E. Lammon will lead the general discussion.

Mrs. E. C. Herzog will give special study to Longfellow's life and bring a new characterization of the work of this favorite American poet.

Mrs. S. S. Newman will discuss James Russell Lowell as a man of letters.

Mrs. Arthur Turcotte will bring to the chapter the interesting details concerning Oliver Wendell Holmes as an essayist.

Mrs. A. W. Moulster will assist in bringing before the chapter the beauties of Whittier's life and works. Through Whittier inherited Quaker blood and adhered to the Quaker practice of a simple life he was a fiery apostle of human brotherhood as depicted in his anti-slavery lyrics now rarely quoted.

UNION MASS MEETING SUNDAY

To be Held at 3 P. M. at First
Methodist
Church

INTERESTING PROGRAM

Adjutant Westbrook, Capt. Larson,
Salvation Army and Cooperat-
ing Churches

Adjutant Westbrook, and Captain Larson assisted by the various pastors of Brainerd, together with all the local Salvation Army forces, will conduct a great union mass meeting in the Methodist church tomorrow at 3 o'clock in the afternoon.

All the clergymen of the city, with their congregations are being invited to co-operate, and as many as possible are asked to be present.

This will be a most interesting service on account of the nature of the program, a meeting like which no other has probably ever been held in this city before. Adjutant Westbrook, the Salvation Army evangelist of Dallas, Texas will quote scripture from the Bible purely from memory, without the aid of the Bible itself either notes of memorandum, for more than an hour. This incessant scripture quotation of purely Bible verses and sentences will all bear upon the subject of "The Everlasting Bliss of the Righteous, and the Doom of the Wicked." There will be music in connection of both vocal, and instrumental, especially it is expected that the singing and banjo picking in the old original southern style will be real interesting, and entertaining. There is no charge, but a rousing good, "free-for-all" time for everybody.

All church people, and Bible students, are urged to be present. Adjutant Westbrook will conduct a revival for one week, beginning next Wednesday at Waterloo, Iowa.

"ANNE, WHAT'S HER NAME"

Play Given Under Lowell P. T. A.
Auspices to be Repeated
Soon

The play "Anne, What's Her Name" which was given under the auspices of the Lowell P. T. A. on March 9, will be repeated soon at the M. E. church basement, for the benefit of the Martha Mary Circle of the M. E. aid.

The play which is a three act comedy mystery drew a full house at the U. C. T. auditorium, and the cast has been asked many times to give a second performance. It is a royalty play, and is a whole evening's entertainment.

The members of the cast had a meeting last evening at the Lowell school to plan a practice and complete final arrangements.

TO PARTICIPATE IN MUSIC WEEK

Brainerd Musical Club Plan Local
Music for Week Beginning
May 6

ASKS COOPERATION

Ministers Requested to Inaugurate
Week by Some Special
Observance

The Brainerd Musical club is planning its first celebration of National Music Week beginning May 6. Music Week has for its slogan, "Music For Everybody—Everybody For Music." Carrying out this idea, the National Music Week committee of the Musical club is asking every organization that meets between the dates of May 6 and 13 to have special music and, if possible, a talk on the importance of music in community life. Every minister is being asked to inaugurate the week by some special observance.

There will be community singing and some distinctive musical feature at the movies every evening. The idea is to choose selections for community singing that illustrate real music—not just anything that has a single. The chief object of having a music week is to increase musical appreciation.

Although not within the scope of the local committee, it is their desire that families and neighborhoods celebrate this week by inviting their friends to listen to the best music afforded by radio or victrola and supplement this with the singing of good popular songs, or hymns.

Other suggestions for celebrating this week by the National Music Week committee, 45 West 45 St., New York City, are musical games, memory contests, exchange of phonographic records including "Giving Opera with the Phonograph," and the exceedingly amusing rhythmic diversion—"The Toy Symphony" with the piano furnishing the melody and the washboard and various household utensils furnishing rhythm. Specific suggestions for carrying out any of these programs may be obtained from the National committee at the above address.

A complete musical program for the week will be published as soon as it can be arranged.

Connection With Salvaging
of Sub 51

Chief Torpedoman James W. Frazer, U. S. Navy, related some of his experiences, in connection with the salvaging of the S-4, at a public meeting in the Chamber of Commerce last evening.

Mr. Frazer, a former resident of Alexandria, Minn., enlisted in the Navy 15 years ago. He is now attached to the Navy Recruiting Station, Minneapolis, which serves Minnesota and North Dakota. Mr. Frazer holds the Navy Cross for heroism in connection with salvaging the S-51 a few years ago.

Mr. Frazer said: "The S-4 sank 1,800 yards off Wood End's Light on the extreme end of Cape Cod in 102 feet of water. This spot is exposed to violent storms from the north and northwest and one of these storms was raging while rescue operations were in progress and almost cost the life of a diver by fouling the air lines in the wreckage.

"Did Not Survive Long"

"The hole made by the collision measured three feet by two feet," said Mr. Frazer. "Water pouring in through this hole built up a pressure which caused the ventilating system to collapse, admitting water and chlorine gas to the central operating compartment and eventually finding its way to the engine and motor rooms. It is my personal opinion that the men in these compartments did not survive long as the divers at no time received signals from them.

"The only possible method by which men confined in the torpedo room could have been rescued," he said, "was through the torpedo tubes. Considering the condition, such as depth of water, temperature of water which was between 33 and 35 degrees, and the fact that the torpedo tubes are operated solely from the torpedo rooms, rescue humanly was impossible.

"After it was determined that no life existed aboard the S-4 salvage was undertaken. The engine and motor room were fitted with special air lines so that water could be expelled to assist pontoons in bringing the craft to the surface.

Pontoon Work Dangerous

"Placing pontoons is regarded by the divers as their most dangerous work," said Mr. Frazer. "Tunnels were made under the hull of the submarine by means of high pressure stream of water, through a regulation fire hose with a special nozzle. We could see only two or three feet under the most favorable conditions, and while digging tunnels were in complete darkness. Chains then were placed under the hull to act as a cradle for the craft. These were attached to pontoons, 32 feet long, 16 feet wide and weighing 40 tons each. Each pontoon when filled with air, is capable of lifting 80 tons.

"On March 17, the pontoons in position, the process of expelling the water was started," he said, "and the submarine rose to the surface almost three months to the minute after sinking.

"No submarine in the Navy ever has gone to the bottom and failed to rise because of improper functioning of its own facilities," Mr. Frazer asserted. "The success of a rescue device, whereby a man could be taken from a submarine is doubtful. Under ideal conditions, in warm water, and in shallow depths, it might work out."

PLANE IS DAMAGED IN FORCED LANDING

Waco Airplane From St. Paul Breaks
Wheel and Propeller,
Damages Wings

THREE OCCUPANTS INJURED

Shot Nose Down Into Rocky Field
Near Noon Hour at 6th
Street Mine

The Waco airplane piloted by Roger Sergeant, St. Paul airman, crashed here in landing on the rocky field adjoining the Sixth street mine this morning, breaking one wheel, the propeller and damaging the wings considerably.

The occupants, Roger Sergeant, Carl Anderson, mechanic, and H. W. Cress, photographer of the Raybell Co., St. Paul, escaped with minor injuries.

The plane went nose down in the field when one of the wheels crumpled as it struck the ground. The three occupants were thrown forward in their seats, receiving bruises on their foreheads.

Mr. Sergeant stated to a representative of the Dispatch at the scene of the crash that he was unfamiliar with landing fields in and around Brainerd and that he took a chance on landing on the only field he thought feasible.

The plane left St. Paul at 9:10 a. m. and came to their unfortunate landing in Brainerd at 11:05 a. m. The plane was on its way to Man-hatten Beach and Pequot Shady Shores where pictures were to have been taken on the property for the Kavli Realty Co., of Minneapolis.

Mr. Sergeant this morning wired St. Paul for a new propeller while other parts of the plane were to be welded here. Work on repairing the plane was being done this afternoon.

A. C. Kavli, Minneapolis, and Basil T. Heath, Brainerd, were awaiting the flyers at the Gruen-hagen field but failed to attract the attention of the flyers to land there.

Holds Navy Cross for Heroism in Connection With Salvaging of Sub 51

Chief Torpedoman James W. Frazer, U. S. Navy, related some of his experiences, in connection with the salvaging of the S-4, at a public meeting in the Chamber of Commerce last evening.

Mr. Frazer, a former resident of Alexandria, Minn., enlisted in the Navy 15 years ago. He is now attached to the Navy Recruiting Station, Minneapolis, which serves Minnesota and North Dakota. Mr. Frazer holds the Navy Cross for heroism in connection with salvaging the S-51 a few years ago.

TO PARTICIPATE IN MUSIC WEEK

Brainerd Musical Club Plan Local Music for Week Beginning May 6

ASKS COOPERATION

Ministers Requested to Inaugurate Week by Some Special Observance

The Brainerd Musical club is planning its first celebration of National Music Week beginning May 6. Music Week has for its slogan, "Music For Everybody—Everybody For Music." Carrying out this idea, the National Music Week committee of the musical club is asking every organization that meets between the dates of May 6 and 13 to have special music and, if possible, a talk on the importance of music in community life. Every minister is being asked to inaugurate the week by some special observance.

There will be community singing and some distinctive musical feature at the movies every evening. The idea is to choose selections for community singing that illustrate real music—not just anything that has a jingle. The chief object of having a music week is to increase musical appreciation.

Although not within the scope of the local committee, it is their desire that families and neighborhoods celebrate this week by inviting their friends to listen to the best music afforded by radio or victrola and supplement this with the singing of good popular songs, or hymns.

Other suggestions for celebrating this week by the National Music Week committee, 45 West 45 St., New York City, are musical games, memory contests, exchange of phonographic records including "Giving Opera with the Phonograph," and the exceedingly amusing rhythmic diversion—"The Toy Symphony" with the piano furnishing the melody and the washboard and various household utensils furnishing rhythm. Specific suggestions for carrying out any of these programs may be obtained from the National committee at the above address.

A complete musical program for the week will be published as soon as it can be arranged.

UNION MASS

MEETING SUNDAY

To be Held at 3 P. M. at First Methodist Church

INTERESTING PROGRAM

Adjutant Westbrook, Capt. Larson, Salvation Army and Cooperating Churches

Adjutant Westbrook, and Captain Larson assisted by the various pastors of Brainerd, together with all the local Salvation Army forces, will conduct a great union mass meeting in the Methodist church tomorrow at 3 o'clock in the afternoon.

All the clergymen of the city, with their congregations are being invited to co-operate, and as many as possible are asked to be present.

"This will be a most interesting service on account of the nature of the program, a meeting like which no other has probably ever been held in this city before. Adjutant Westbrook, the Salvation Army evangelist of Dallas, Texas will quote scripture from the Bible purely from memory, without the aid of the Bible itself, either notes of memorandum, for more than an hour. This incessant scripture quotation will all bear upon the subject of 'The Everlasting Bliss of the Righteous, and the Doom of the Wicked.' There will be music in connection of both vocal, and instrumental, especially it is expected that the singing and banjo picking in the old original southern style will be real interesting, and entertaining. There is no charge, but a rousing good, 'free-for-all' time for everybody.

All church people, and Bible students, are urged to be present. Adjutant Westbrook will conduct a revival for one week, beginning next Wednesday at Waterloo, Iowa.

"ANNE, WHAT'S HER NAME"

Play Given Under Lowell P. T. A. Auspices to be Repeated Soon

The play "Anne, What's Her Name" which was given under the auspices of the Lowell P. T. A. on March 9, will be repeated soon at the M. E. church basement, for the benefit of the Martha Mary Circle of the M. E. aid.

The play which is a three act comedy mystery drew a full house at the U. C. T. auditorium, and the cast has been asked many times to give a second performance. It is a royalty play, and is a whole evening's entertainment.

The members of the cast had a meeting last evening at the Lowell school to plan a practice and complete final arrangements.

ARCH COMPSON PLAYS MIRACULOUS GOLF

CONSISTENT, CAREFUL GAME

BY BRITISHER

GALLERY OF 1,500 PEOPLE OBSERVES THE PLAY AT MOOR PARK, ENGLAND

750 POUND WAGER ON 72-HOLE MATCH, BRITISHER WINS 18 UP AND 17 TO PLAY

Moore Park, England, April 28.—(UP)—Archie Compson, British professional, today won his \$3,750 match with Walter Hagen, P. G. A. champion of the United States, 18 up and 17 to play.

Hagen took the worst trouncing of his golfing career in the two-day contest which was heralded as the "match play for the championship of the world." The American was 18 down at the ending of the morning round, and agreed to quit. Later it was decided to continue play until Compson should win, which he promptly did with a half at the first hole after lunch.

The rival professionals then played an exhibition match to entertain the spectators who had paid \$3.75 for their tickets and who were rather dissatisfied with the one-sided struggle.

Moore Park Eng., April 28.—Consistent and careful golf gave Archie Compson, well known British player, further advantage over Walter Hagen, the American, in their morning round of the final day's play today.

Compson was 18 up at the end of the morning round with 18 holes left to play.

At the end of the 54 holes when Hagen was 18 down with 18 holes left to play, Hagen's manager told the United Press that the match would be continued until either it was halved or Compson had won.

Should Compson win early in the afternoon round the two golfers will continue the complete 72 holes—the final holes in an exhibition match for the gallery of 1,500 people.

Previously it had been reported that Hagen had conceded defeat at the end of 54 holes.

This means that Hagen, in order to win the 750 pound wager on the 72-hole match, must win the next fifteen holes—18 to halve the score and the 19th for victory.

This seems improbable. Compson was playing miraculously. In the first 36 holes yesterday he had Hagen 14 down.

He took four holes on the morning round today, picking up three of them on the first nine when he played the entire nine either in three or four. He picked up another hole on the incoming nine of the morning round.

Hagen failed to show the golf that had made him the peer of American professionals, and this, added to the near-par golf of the Briton, served to put Hagen further behind than he ever has been before in match play.

The American's putting was bad and plainly showed the lack of winter practice. Twice on the morning round he dubbed easy five yard putts and had to take three to sink. His approaches and tee shots were good but on the greens the American golfer consistently ran into trouble.

Compson on the other hand maintained a consistently good game. His tee shots were long and true. His approaches were well done and he lost on strokes on the greens. Through the entire match thus far played Compson maintained a steady and brilliant pace—but so steady that the brilliance was almost overshadowed. Three and four made up his game with an occasional two on the 36 played yesterday.

As compared with this Hagen has run into fives and sixes occasionally, although on the first nine today he played in even fours up to the ninth when three putts necessitated a five.

Yesterday's Hero—"Big Jim" Elliott, of the Brooklyn Robins, who let the Braves down with but three hits in beating them 9 to 0. The Brooklyn-Boston affair was featured by three home runs, Riconda, Henline and Bissonette each getting one.

Three Tigers' pitchers—Billings, Holloway and Van Gilder—were hampered for a total of 16 hits by the Cleveland Indians who won 10 to 6, thus replacing the Yanks in first place of the American League.

Sam Gray, who pitched the St. Louis Browns to a 14 to 5 win over the Chicago White Sox, featured the game with a double in the third inning which brought home three runs. But for an error by Kress in the ninth, Gray would have shut out the White Sox. It was Gray's fourth start in five days.

The Kansas City Blues performed as their position as league leaders warranted and defeated Toledo, 3 to 2, in the first home game of the season. A crowd of more than 14,000 saw the contest.

The Milwaukee Brewers were so cheered over playing on their own grounds for the first time this year that they made Columbus perform for the benefit of the cash customers to the tune of 15 to 3. Brief hit two homers, two singles and was walked in five sessions at the plate.

Tincup, Louisville Indian hurler, had the best of a pitching argument with Polli of St. Paul, and the Colonels triumphed, 3 to 1.

Minneapolis employed five hurlers in an attempt to stave off an Indianapolis victory, but to no avail, 9 to 3.

Tom Heeney arrives from England, the most disappointing challenger for the heavyweight championship of the world since Frank Moran shook "Mary Ann" at big Jess Willard.

The New Zealander simply cannot create the impression that he has a chance to defeat Gene Tunney. In fact, as far as Tom's attitude is concerned, one never would guess that he has that intention.

Yet Heeney has a much better chance than he realizes. Tunney looks to me to be slow and stout. There have been heavyweight champions ere this who have been in that condition and still retained their titles, but they placed the credit elsewhere.

Tunney, it must be admitted, has three months in which to work himself into a fine frenzy of fighting form. The champion undoubtedly will point for speed in his preparations for the downfall of Tom Heeney. It will be speed and boxing skill upon which Gene will rely in his next defense of the heavyweight title.

The New Zealander is slow, and by a moderate effort Tunney can look so much faster than Tom that he is certain to catch the judges' eye.

A display of speed, and even moderate boxing skill, however, is not always sufficient to win a prize fight. And when the heavyweight championship of the world, with all its golden accessories, is at stake, any bout becomes a prize fight despite all Mr. Tunney's erudition. A fighter who plies his trade but three times in two years loses something which the other fellow has. Heeney has it.

There is small doubt that if Tom's hand were to be raised at the end of the fifteenth round next July, the New Zealand blacksmith would keel over in a faint. Least of anyone can Heeney picture himself the heavyweight champion of the world and a millionaire. He undoubtedly would be embarrassed to have to return to the Antipodes in any such condition. Probably he would not dare to show his battle-scarred face in Auckland. Instead, he would go to Paris and invest heavily in silk shirts.

Meanwhile, a couple of battlers entirely lacking in Heeney's inferiority complex, as well in his fighting heart, are preparing to exhibit themselves to the public gaze, for gold, next Monday night.

Jack Sharkey of Boston, who always will attract the curiosity of a certain element of the boxing fraternity which cannot, simply cannot, believe he can be that bad, announces the impending massacre of Jack Delaney of Bridgeport.

Sharkey says he lost to Dempsey, Heeney and Risko because of bad advice.

"They told me to box 'em," wails the ex-tar. "I wanted to fight but they kept telling me to box."

"This time I'm going to fight, and you will see the finish of this baby Delaney just as you did of Jimmy Maloney and others I have taken."

To all of which, Delaney replies not a word, but folds his right hand meaningfully.

ARCH COMPTON PLAYS MIRACULOUS GOLF

CONSISTENT,
CAREFUL GAME
BY BRITISHER

GALLERY OF 1,500 PEOPLE OBSERVES THE PLAY AT MOOR PARK, ENGLAND

750 POUND WAGER ON 72-HOLE MATCH, BRITISHER WINS 18 UP AND 17 TO PLAY

Moor Park, England, April 28. (UP)—Archie Compton, British professional, today won his \$3,750 match with Walter Hagen, P. G. A. champion of the United States, 18 up and 17 to play.

Hagen took the worst trouncing of his golfing career in the two-day contest which was heralded as the "match play for the championship of the world." The American was 18 down at the ending of the morning round, and agreed to quit. Later it was decided to continue play until Compton should win, which he promptly did with a half at the first hole after lunch.

The rival professionals then played an exhibition match to entertain the spectators who had paid \$3.75 for their tickets and who were rather dissatisfied with the one-sided struggle.

Moor Park Eng., April 28.—Consistent and careful golf gave Archie Compton, well known British player, further advantage over Walter Hagen, the American, in their morning round of the final day's play today.

Compton was 18 up at the end of the morning round with 18 holes left to play.

At the end of the 54 holes when Hagen was 18 down with 18 holes left to play, Hagen's manager told the United Press that the match would be continued until either it was halved or Compton had won.

Should Compton win early in the afternoon round the two golfers will continue the complete 72 holes—the final holes in an exhibition match for the gallery of 1,500 people.

Previously it had been reported that Hagen had conceded defeat at the end of 54 holes.

This means that Hagen, in order to win the 750 pound wager on the 72-hole match, must win the next nineteen holes—18 to halve the score and the 19th for victory.

This seems improbable. Compton was playing miraculously. In the first 36 holes yesterday he had Hagen 14 down.

He took four holes on the morning round today, picking up three of them on the first nine when he played the entire nine either in three or four. He picked up another hole on the incoming nine of the morning round.

Hagen failed to show the golf that had made him the peer of American professionals, and this, added to the near-par golf of the Briton, served to put Hagen further behind than he ever has been before in match play.

The American's putting was bad and plainly showed the lack of winter practice.

Twice on the morning round he dubbed easy five yard putts and had to take three to sink. His approaches and tee shots were good but on the greens the American golfer consistently ran into trouble.

Compton on the other hand maintained a consistently good game. His tee shots were long and true. His approaches were well done and he lost on strokes on the greens. Through the entire match thus far played Compton maintained a steady and brilliant pace—but so steady that the brilliance was almost overshadowed. Three and four made up his game with an occasional two on the 36 played yesterday.

As compared with this Hagen has run into fives and sixes occasionally, although on the first nine today he played in even fours up to the ninth when three putts necessitated a five.

WHAT OUTSTANDING STARS DID YESTERDAY

(By United Press)

Babe Ruth and Lou Gehrig of the Yankees were idle when rain and cold weather caused postponement of the Red Sox-Yankee game.

Ty Cobb and Tris Speaker also were idle due to general inclement weather in the east which prevented the Senator-Athletics contest.

Rogers Hornsby of the Braves went hitless in four times at bat.

Kiki Cuyler of the Cubs got a single and sacrifice and scored a run in three credited turns at the plate.

Harry Hellmuth of the Tigers hit a double in five attempts.

Paul Waner of the Pirates was idle when the Reds-Pirates game was rained out.
